Dear Valued Customer:

United Industrial Services and Tradebe Environmental Services are pleased to announce that Tradebe Environmental Services, LLC, has acquired all of the outstanding stock of United Oil Recovery, Inc. United is excited to embark on this next phase of our history by joining Tradebe. This transaction combines the expertise of two industry leaders, to provide significant opportunities for the growth of United's base business in the Northeast by offering expanded service capabilities and recycling opportunities.

United Industrial Services has a broad range of environmental services that will enhance Tradebe's North American operation and provide additional service capabilities to Tradebe's existing customers. Both entities complement one another - United's facilities and technologies combined with Tradebe's, creates a strong industrial services operational platform and provides state-of-the-art treatment technologies across the country. With this acquisition complete, the Tradebe family of companies now operates forty six (46) hazardous and non-hazardous waste treatment facilities in the United States, Spain, UK, and France.

United's management team will remain actively involved with the combined organization, serving current customers and expanding services. United has a long-standing reputation of excellent customer service and environmental compliance – this will continue without interruption. We will maintain business continuity throughout the integration process; the sales representatives and the service personnel you have developed relationships with will continue unchanged. Our commitment to our clients and providing the highest level of service available continues to be our focus and priority.

Please feel free to contact us with any questions or concerns. Also, please look forward to additional service offerings as they become available during this transition. Your Sales Representative will be in your area soon to discuss how these exciting expanded capabilities can offer you significant efficiencies!

We look forward to continuing a strong partnership with you, our client.

Sincerely,

David J. Carabetta
President
United Industrial Services
