

United Industrial Services provides emergency and non-emergency spill response management for hazardous and non-hazardous materials on a 24/7/365 basis. Our experienced personnel work closely with the customer and directly manage all aspects of the incident to assure that the spill is properly contained and the waste is removed.

United utilizes more than 30 years of experience containing toxic releases to achieve the following:

- Contain the release
- Minimize damage
- Recover & transport hazardous materials
- Restore the site to its original condition

Call 1-888-276-0887 for emergency assistance.

## Spill Response Services:

- **Turnkey Management** — United can serve as your single point of responsibility for full coordination of response and remediation on any spill incident. From the first phone call until the final report is filed, we are here to manage the process.
- **Rapid Response** — Our emergency response team is on call to get to the spill site quickly for immediate evaluation and action.
- **Full Site Coordination** — We are in full communication with first responders (Fire, Police, Public Safety, Federal, State, and Local Regulatory Agencies) to coordinate your contingency plan and our response plans. This avoids duplication of efforts and minimizes the impact of the spill until our response team arrives.
- **Regulatory Notification** — We deliver both verbal and written notification to all required regulatory authorities. In addition, we assist in negotiating final clean up and remediation requirements.
- **Waste Management** — United Industrial Services offers complete waste management and removal services. All options are evaluated to determine the most cost-effective method of removal and disposal.
- **Full Reporting** — Required reports are filed with the appropriate environmental regulatory agencies with copies provided for your files. At United Industrial Services, our goal is to protect your company's interests.
