

# FLEET SERVICES - Safe and Reliable Transportation

## UNITED'S FLEET

United Industrial Services provides safe and reliable transportation of hazardous and non-hazardous waste for both large and small quantity generators. Our fleet of waste transportation vehicles encompasses a variety of specialized equipment including high capacity and stainless steel vacuum trucks designed to provide secure transfer of materials and greatly reduce the risk of an inadvertent release. Our equipment also enables us to meet your commodity transportation needs. Over 30 years of experience ensures the right equipment is chosen to get the job done effectively and efficiently.

### Our Fleet Includes:

- Vacuum Trucks and Trailers
- High Capacity Vacuum Trucks
- Stainless Steel Vacuum Trucks
- Service Vans and Box Trailers
- Roll-Offs, Sludge Boxes, Vac Boxes and Dump Trailers
- Flatbed Trailers
- LTL & FTL Services

The company owns and operates a fleet of more than 150 waste transportation vehicles including vacuum trucks, tank trucks, tractor trailers, box trucks, vans and other specialty vehicles. United's range of environmental services provides complete and cost-effective waste materials management supported by fast-action response and world-class customer service.

After initial transport, United manages recovery and recycling of waste in one of its regionally dispersed facilities. We employ the most advanced, state-of-the-art environmental technologies including many unique and cutting-edge procedures and equipment.

## SAFETY

United employees receive training in hazardous material handling and confined space entry, including respiratory protection, decontamination, and personal protective equipment use. Annual training includes confined space rescue. Our field service employees have received 40-hour OSHA Hazardous Waste Operations and Emergency Response Standard (HAZWOPER) certification. United's training and consulting services are also utilized by our clients.
